Defense Attorneys To Make
Final Efforts In Behalf
Of Defendants

OKLAHOMA CITY, Okla., Oct. 6.—Federal Judge Edgar S. Vaughn today denied motions of defense attorneys for a new trial and for arrest of judgment in the cases of the seven persons, including the notorious desperadoes, Harvey Bailey and Albert Bates who were found guilty of conspiracy in connection with the kidnaping of Charles F. Urschel, Oklahoma City oil millionaire.

All seven defendants will be sentenced by Judge Vaughn tomorrow.

Can Give Life Terms

Attorneys representing Bailey, Bates, Mr. and Mrs. R. G. Shannon and their son, Arnon Shannon, and the two St. Paul defendants, Edward Berman and Clifford Skelly, came before the court this morning in a desperate effort in behalf of their clients. The maximum penalty Judge Vaughn can assess tomorrow is life imprisonment.

Samuel Sayers, counsel for the three Shannons, was first to ask for a ruling on his motion for a new trial.

"Motion overruled and exception allowed," said Judge Vaughn briskly.

Attorney James H. Mathers, acting for Bailey and Bates, was next to ask for the court's ruling on the motions he had filed for an arrest of judgment and for a new trial.

"Motions overruled and exception allowed," said the judge.

The Needlework Guild, which is a national organization, is making a special effort to gain new members this year and the price of a membership in the guild is two new garments, which can be used in welfare work by the guild. The new garments are all given to the needy of the city or to organizations as specified by the members. Any member of the guild or the presidents of the various sections will gladly accept memberships.

Dear Pa Newg:

Once in a great while I hear something pertaining to nature that makes me feel that our wild life still exists. My good friend Mr. Nicholas Casella related to me the other day that while he was on a trip on the out-skirts of the city he discovered a rare bird in these parts, a White Egret. He stated that this was the first time he had ever seen a bird of this species so far north of Virginia. Florida is the ancestral home of the White Egret. They once were plentiful in that state, but plume hunters have brought great havoc among their colonies and are now rare.

PITTSBURGH, Oct. 6.—Two men were shot down near Uniontown early today as coal and steel district riots raged. The shooting was the first of high-powered rifles since the dull roar of big-bore guns.

The wounded men were Harry I. Oray and F. W. Frederick, company deputies employed by the H. C. Frick Coke company at Colonial No. 3 mine. Neither was seriously hurt. Both were struck by shotgun charges as they lay asleep in a shack fronting on the highway leading to the mine.

Many Shots Exchanged.

Several hundred shots were exchanged between the striking pickets and company deputies at "the patch". Houses of the deputies were riddled with bullets. Every window in the car was shattered. Only the timely arrival of a state police detail headed by Lieut. Thomas M. Boettner averted what threatened to develop into a raging gun battle. Both pickets and deputies claimed "the other side started shooting".

State police stopped two automobiles and arrested three miners. A revolver was found in each machine. (Continued on Page Two)

GRIFFITH STADIUM, WASHINGTON, Oct. 6.—Tuned high above the G-string with the drama of the moment, where twenty four hours ago there was almost apathy, Washington's re-inspired fandom came on with a hustle and bustle and roar this afternoon for the fourth game of the world series between its Senators and the New York Giants, a game that probably will be the "pay ball" of the set. The Senators blew the first two in New York and then rallied when all but hope had fled. They won here behind the encouragement of the American League's lively ball and the shut-out pitching of Earl Whitehill yesterday. Today, they were to face New York's ace of aces, Carl Hubbell and in his staunch left arm reposed the fate of baseball's great championship.

SAYS STRIKES DENOTE BUSINESS UPSWING

(International News Service)
WASHINGTON, Oct. 6.—All the labor strikes, although "disturbing," are nevertheless an indication that business everywhere is on the upswing, Walter Teagle, head of the NRA industrial advisory board and chairman of the board of the Standard Oil Co. of New Jersey, declared today.

"At the beginning of every cycle," he said, "strikes and unrest are always evident. We certainly can't be going into a depression, so the present unrest and strikes must definitely indicate that we are moving back up."

Teagle announced he had received figures today which showed that one of the codes in effect had produced a payroll increase of nearly \$15,000,000 a month and had resulted in the re-employment of 145,000 workers. This was the cotton textile code.

He said that in March the payroll of the cotton textile industry was \$12,800,000 a month and in September it had risen to \$27,000,000. He said that employment figures for March showed 320,000 persons at work in industry, while in September the average employment was 465,000 workers, or an increase of nearly 50 per cent.

Teagle is convinced that industrialists everywhere believe the NRA has helped business considerably. (Continued on Page Two)

Chest Workers Are Preparing To Open Drive On Thursday

One week from today will find New Castle's largest army of Community Chest workers, a thousand strong, at work subscribing the needed \$70,000 which the Chest organization has established for its goal this year.

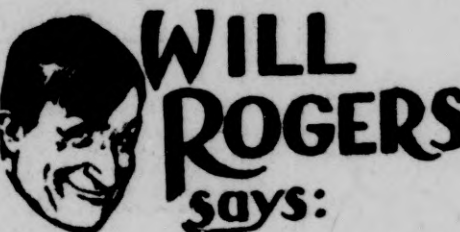

Commences Thursday.
On Thursday evening, October 12 an opening dinner-rally will assemble the energetic Chest forces in the Cathedral, following which campaigning will commence with a vengeance.

General Chairman Fred L. Rentz, Chairman L. B. Round of the campaign committee and other leaders of this fall's drive today hastily surveyed campaign plans and found them to be ready. For two weeks a preliminary campaign organization has been concentrating effort on the details of the city-wide canvass.

After the opening round-up in the Cathedral on Thursday, campaign teams will keep busy over the week end and report for the first time on Monday night, the 16th. Similar report meetings will occur on Tuesday, Wednesday, Thursday and possibly Friday evenings.

A master campaign leader, Bert Wells, New York, reached New Castle today and within a few moments after arriving had taken the reins of the drive preparations, a job that will be his until the campaign closes.

Organization of teams of workers under a group of different divisions was reported completed or near to it. And with organization over, the teams have scheduled preliminary pre-drive pep meetings for early (Continued on Page Two)

Well, they got me doing it. I will now give you the picture:

It's the United States versus depression. The score is 3 to 2 in favor of depression, it's the last half of the ninth inning, United States at bat, two men are out and the bases are loaded. Unemployment is on third, NRA is on second, farm relief on first and Roosevelt at bat. He has already had two hits during the game. There is three balls and two strikes on the batter.

Depression's team has gathered around its pitcher. The batter is all confident. He rubs his hands in the dirt, he smiles. Here it comes. Bang! It's a hit, it's a hit. Unemployment crosses the plate.

NRA comes home with the winning run. Boy, oh boy, what a game!

MORE FAMILIES TAKEN OFF RELIEF ROLLS HERE

Systematic investigation of Lawrence county's relief cases in two months time, from August 1 to October 1, has revealed what the Lawrence County Emergency Relief board estimates would, if figured on a yearly basis, amount to an annual saving of \$236,000.

Dr. G. S. Bennett, board chairman, disclosed this fact today after Executive Director Wilson Hall had completed a thorough survey of relief figures here for the past 81 days. Commending the state's new system of investigation, by which trained "visitors" call upon all applicants to impartially judge their case of need, Dr. Bennett gave full credit for the reduction in families on relief to the activities of the investigators.

On August 1 there were 4,434 families receiving aid, the chairman pointed out, and on October 1, 2,964. Food orders distributed to the (Continued on Page Two)

VERDICTS PLEASE OKLAHOMA GOVERNOR

OKLAHOMA CITY, Oct. 6.—"Let's fight fire with fire. Let's pit our machine guns against theirs."

Governor William H. Murray of Oklahoma—the state where the federal government is now engaged in the wholesale prosecution of kidnappers—used these brisk words as he took time out from his official duties to discuss the abduction "racket" with International News Service.

He expressed hearty approval of the government's show of force in Oklahoma City—the employment of machine guns to guard the court-room and the turnout of armed men to meet George "Machine Gun" Kelly and his wife, Kathryn, when they were flown here from Memphis, Tenn., for trial.

Pleased With Verdicts.

"The criminals have got their guns," said Gov. Murray. "Let's let them know we have ours. I have advised every county in the state to buy machine guns. I bought three machine guns for the state criminal bureau. Six shooters are of no avail against machine guns."

The picturesque, long-limbed, gray haired governor, familiarly known as "Alfalfa Bill," sat hunched down on his spindly in a big leather chair, his feet perched comfortably on his desk.

He gave vent to his satisfaction over the conviction of the super-desperadoes, Harvey Bailey and Albert Bates, and five others for \$200,000 "Machine Gun" kidnapping conspiracy and of the plans of the government to waste no time in bringing Kelly and his red-haired wife to trial next Monday.

Speaking of the conviction of Bailey, Bates and the others, Gov. Murray said:

"These convictions have broken the organized lines of criminality. But, he hastened to add, these should be no relaxation in the war on the kidnaper and racketeer."

Kelly Is Coward.

"For a while these convictions will have a good effect," the governor asserted. "But we need more convictions. We must follow this drive up vigorously to prevent the criminals from reorganizing."

Gov. Murray, sizing up some of those now in the government net, took a few verbal shots at them.

"Machine-Gun Kelly is not only a crook, he is a coward," he said. "Bailey impresses me as a man without fear. Bates is a cross between Kelly and Bailey. Kathryn Kelly is a natural born criminal. She has a long criminal record. I knew a lawyer in Shawnee, Okla., who handled a robbery case she was mixed up in. She is shrewder and braver than her husband."

the students to quit marking up buildings with their pieces of chalk. Citizens try to keep their property in good repair and neat in appearance. It is discouraging to attempt this without the co-operation of the school children.

Next Thursday, October 12, is a legal holiday in Pennsylvania. That was the day, in 1492, if you remember, when Christopher Columbus discovered America.

Some better means of protecting the motorist against the middle blockade in the West Washington street bridge should be provided. Ever since the bridge was rebuilt, and opened to traffic, there has been much conjecture that it would develop a lot of accidents. The first one has occurred, and the question of increased safety there should be given some attention.

Autolists had to proceed with caution on the highways this morning, as a heavy fog enveloped the entire district.

Moonlight ride seem to be quite the vogue this week at Troop F stables. Along the bridge paths Wednesday evening were Mr. and Mrs. Ben Wolfebrandt, Miss Melba Brickner and Lee Stewart. The stillness of the fall night ride was broken only by the weird hoot of an owl, the howl of a dog and the whistle of a far-off train. After pausing for a bit to eat, they returned to the stables.

A certain young man at the Pennsylvania Power Company endeavored to tell some friends how many doughnuts he has eaten in his life, having made it a habit of consuming two each morning with a cup of coffee for a certain number of years. It ran into the thousands!

A rushing business was being done at the New Castle free public library and its South Side branch today. A number of books even larger than usual were being borrowed, and the staff was kept busy checking them out.

Pa Newscast started last night when he saw two boys on East North street with very strange looking faces. Looking closer Pa discovered they were false faces. Hal-lows'ers already! And over three more weeks to go.

turned to the stabilization front with renewed insistence. How much success they will have remains to be determined, but some treasury officials are inclined to the point of view that stabilization at this time is desirable. They thought so, too, last June, but President Roosevelt thought otherwise.

Decision rests with Mr. Roosevelt. Congress has the final say in the matter of debt reduction, but in regard to stabilization the president has the last word. Whether his views since June have changed is not known at the moment.

The president was unwilling to tie the dollar to the pound last June because he could not then determine how much, if any, inflation might be necessary to get his recovery program into high gear. The vast inflationary powers reposed in him by congress have thus far been unused. But there are a good many economists about Washington who believe, rightly or wrongly, that some degree of controlled inflation will be necessary before the domestic recovery program can become as effective as its sponsors hope.

Against Gold Release.

The present dilemma, from the administration viewpoint, is almost precisely what it was last summer. If Mr. Roosevelt ties the dollar to the pound he undertakes, inferentially at least, to support the dollar abroad. Should the dollar drop that would mean the export of gold to meet the situation.

The administration's policy up to now has been against any release of gold except for the most necessary purposes. The announced policy has been to let the dollar "seek its own level" in the world market. The next few weeks are expected to determine whether there has been a change in this policy. The president's own advisers are divided up on it.

families have been increased to meet the rising food prices, and still, figuring the money saved the state on the basis of the highest food order, yearly saving would amount to \$236,000.

The board has boosted the food grant from an average of \$2.65 per week to \$3.09 per week.

"The investigators can be credited with effecting the saving estimated," Dr. Bennett commented. "When you figure the number removed from relief from August 1 to October 1, then figure the weekly orders saved and then figure it for a year, you'll get \$236,000."

Executive Director Hall's figures, indicating the trend of the relief burden since August, shows 4,434 for August 1, 3,807 for September 1, 3,558 for September 15 and 2,964 for October 1. The decline was steady.

Part of the reduction came about, it was added, from a betterment in economic conditions.

TWO MEN SHOT IN STRIKE CLASH NEAR UNIONTOWN

Secreted in a thicket near the battle scene police found two 12-gauge shotguns, both of which had been fired recently.

New disorders loomed in the tri-state steel strike zone at Ambridge, Pa., Weirton, W. Va., and Steubenville, O.

Outbreak Yesterday.

Adam Peteski, 42, a bystander, was shot and killed and a score of pickets were either wounded or clubbed at Ambridge late yesterday as bullets whistled and stones flew thru a tear-gas barrage laid down by 200 deputy sheriffs who drove 500 striking steel workers from their picket posts at the Spang Chalfant Seamless Tube company.

Rioting strikers at the Steubenville plant of the Weirton Steel company were dispersed by tear gas bombs when 1,000 pickets stood 150 workmen brought into the Pope Mill.

Richberg said he would confer with Gen. Hugh S. Johnson, NRA administrator, and Senator Robert Wagner, chairman of the National Labor Board, in an attempt to bring about peace in the Illinois coal fields under the coal code.

More than 5,000 shots were fired into the Peabody mine property from the 15-mile picket line formed by progressive miners and sympathizers. During the siege 100 United Mine workers lay huddled in the mine property, cut off from all assistance. Ambulances were unable to slip by the picket lines to give aid to the wounded.

With the arrival of state troops the besieging picketers slipped quietly away into the hills and the seventeen wounded men, three of the non-combatants, received medical attention. Fourteen of the casualties were mine workers.

Bruere came here from New York with Mr. Roosevelt yesterday morning, and today was hard at work in his new job.

Judging by the news stories, a wreck or a hold-up is what a girl gets for going out with a married man.

Peaceful picketing continued at both the Clarksburg and Weirton plants of the Weirton concern.

The week-old "siege of Clairton" continued today. Inside the steel plant, 3,000 employees are being fed and lodged by the company. Plant officials have provided them with chess and checker boards and cards—and a radio to listen to the world series.

Mine Strike Waning.

Meanwhile, the mine strike, breeding place for the steel mill disturbances, gave indications of nearing its end. The strike, first declared in protest against delay in formulating a bituminous coal code, was continued in an attempt to force union recognition at Captive mines of the Frick company in the coke region.

More than 2,000 miners have returned to the pits in eight Allegheny county mines. Many others were "persuaded" to remain away by picket lines.

The W. J. Rainey company announced that its five mines in Green and Fayette counties, employing about 2,000 men, would not resume operations until protection by state authorities is assured.

Other sections—notably the populous Fayette and Washington county fields—are still gripped tightly by the miners' holiday. Fayette leaders issued a "last word" declaration that pickets would keep the mines closed until the Frick company grants formal union recognition.

Invade Latrobe.

Greensburg, Pa., Oct. 6.—Carrying their industry paralyzing campaign into neutral fields, bands of roving "hulday" pickets deployed through the Westmoreland county mill region and forced shutdown today of four more district plants.

Announcing themselves as striking bituminous miners, a mob numbering about 800 men surged into the local area and immediately turned foot toward the Latrobe Trol company, Railway, Steel Spring company, French Plant company, and Pearce Manufacturing company.

Believed to be from the Allegheny-Westmoreland section, the men fixed themselves at all entrances of the four concerns and turned back all who attempted to enter for work.

Jubilant over the effect of their activities, the invaders staged an impromptu parade through Latrobe streets.

Fail to Halt Trains.

Brownsville, Pa., Oct. 6.—Peaceful picketing of the Monongahela railroad terminal here today failed to halt operations and succeeded in keeping only a score of shopmen away from their benches.

Superintendent J. W. Boyd said that operations were being continued as usual. This afternoon the picket line had dropped to about 100 miners, remnants of an original line of 300 men attempting to halt the importation of West Virginia coal.

He said this 4,500,000 persons represented over one-fifth of the 21,000,000 workers who will come under the provisions of the various codes yet to be approved.

Of the banking code, Teagle said: "It is going to ban most of the unfair competitive practices which have demoralized the bankers of this country. Plan To Prevent Home Robberies Given By Police

New Code Is Issued By Police Chief To Meet Situation

A new code was today announced by the police department for use in the city in the protection of the homes from robbery.

Recent robberies at homes, where the people were out of town or the occupants were out for the evening, necessitated this new regulation, the chief of police announced today.

Under the provisions of this new code of procedure on the part of the police, those who are out of town or away from home and have asked the police to keep their homes under surveillance, there are two requisites which must be observed, otherwise, the police will be unable to afford the protection desired.

The first of these is that the window blinds be kept up and the second that the persons asking this protection, advise the police of their return home. If these requirements are not observed, no consideration can be given the requests for special protection of this kind.

The last provision is due to the fact that in many instances, the police have had to get people out of bed, when inspecting the homes being protected, when they see things that indicate that people are in the house and the police are under the impression that they are away.

If this co-operation is given the police, it is anticipated that the fullest protection can be given.

juvenile like Monte Weaver, the overnight nominee, they can and probably will go on to win the series. If Hubbell beats them again, they might as well pack up and go on home.

Yesterday's most celebrated spectator, President Roosevelt, will not be able to attend this afternoon, it was announced. He did his part by bringing the home town luck and good fortune yesterday but affairs of state, it seemed, were too pressing to permit of another afternoon at the ballpark today.

In other words, Mr. Roosevelt started them out yesterday, but now they'll have to finish themselves.

They behaved as though they felt fully capable of this as they began batting practice before the portable cage, all of them hitting the American league ball to the far-flung sections of the outfield. However, it remained for Mr. Lefty O'Doul of the Giants to hit the first ball far down the right field foul line over the wall and into the street.

In spite of the swift change in local fortunes, the early crowd was not impressive. Forty minutes before game time, the bleachers were about 20 per cent sold while the covered stands only held a scattered few. The demi-tasse stand in center field alone was doing a capacity business.

In spite of the swift change in local fortunes, the early crowd was not impressive. Forty minutes before game time, the bleachers were about 20 per cent sold while the covered stands only held a scattered few. The demi-tasse stand in center field alone was doing a capacity business.

As the Giants took the field for batting practice, the spectators were told to leave the ballpark. However, it remained for Mr. Lefty O'Doul of the Giants to hit the first ball far down the right field foul line over the wall and into the street.

LABOR DELEGATES HEAR FARLEY IN CAPITAL SPEECH

(Continued From Page One)

throughout the remainder of the Nation, the plea of the postmaster general was taken as the voice of the administration.

Farley said:

"Organized labor can make a mighty contribution to the success of this great movement by continuing to exhibit upon the part of the rank and file: a recognition of the patriotic cooperation which the great majority of the employers of labor have rendered to the president's recovery program."

Complete Confidence.

"There can be no doubt that great numbers of individual employers, great numbers of industrial corporations and business houses have increased wages and lowered hours without knowing exactly how they would find the means with which to finance this expansion."

"We must make this task easier for them by reposing complete confidence in the good sense and sound judgment of the loyal men and women whom the president has committed the administration of the recovery act."

As marking the turn of the economic tide, Farley referred to the definite and gradual increase of volume of business in the post office department.

Not Too Hasty.

"It would be a sad mistake if we were too hastily to assume, by reason of the satisfactory gains of the last few months, that our campaign of recovery had attained its end."

At one point, Farley referred to the faring of Benjamin Franklin, first colonial postmaster general, to his associates in the continental congress.

"When in the face of doubts as to the wisdom of signing the declaration of independence, Franklin told them bluntly: 'If we don't hang together now we are all most certain to hang separately later.'"

Lists Achievements.

Farley predicted continued momentum of the progress of the NRA and listed the achievements of the new deal to date.

"Child labor has been abolished," he said. "Provision has been made to relieve the strain upon the owners of homes in carrying their mortgages incurred in more prosperous times."

"Unemployment relief has proceeded rapidly and in many sections of the country there has been a substantial lessening of the demand."

"The banking system of the country has been placed upon a firm foundation. Credit is being released and the spirit of confidence is gradually being built up."

"Nothing is more important at this juncture than the maintenance of this spirit of confidence and this can be accomplished only if all sections of the recovery parade move in unison."

HEAVY LOSS OF LIFE IN FOREST FIRE

FIFTY deaths in a forest fire close to the heart of a great city constitute a tragedy difficult to believe. Coming at any time the Los Angeles disaster would strike awe over the whole country. Coming in national fire prevention week, it seems particularly ominous.

It was said that the blaze was started by an unextinguished cigarette stub. The charge is a common one and newspaper reporters are often obliged to accept it in the absence of any other explanation. Usually they are skeptical, because it has been assigned too frequently. Everyday experience shows so many carelessly tossed butts result in no damage that the hazard is discounted.

Nevertheless the danger is very real in California. The laws against throwing lighted matches or burning tobacco from automobiles is strictly enforced. The state's lack of abundant fresh water supplies, its seasonal droughts of long duration, and the presence of vast timber tracts are a combination of circumstances involving great peril. Extraordinary caution is necessary in the circumstance. In this instance the property destruction becomes a minor matter in comparison with the loss of human life.

FOOTBALL BECOMES KING

A certain crown is passing through a shuffling process and will soon end up on a new head. King Baseball is about to be deposed and football is about to ascend his throne. Their subjects are reconciled to the change so the transition should be orderly, though noisy. The only thing that can cause more stir in the sports world than a world series game or a football contest is a world series game and a football contest on the same Saturday afternoon.

No doubt the series will appease the appetite of most baseball fans for another season and it is a certainty the hunger of the gridiron enthusiast is near the starvation point after 10 months of fasting.

For the next several Saturday afternoons the nation will close up shop and jam thousands of university, college, preparatory school and high school stadiums, bowls, grandstands, bleachers and sidelines scattered across the length and breadth of this land. A few years ago football captured the fancy of sport-loving America and there is no indication that its popularity is on the wane.

Baseball is the sport of tired business men, clerks and factory workers. Football is the sport of the fur-coated flapper and school girl, college and ex-college folk, parents of those clad in moleskin, and the many others who at this time of year transfer their affection from baseball to football.

DODGES COLLECTOR'S ROLE

Although an official coloring is to be given efforts to salvage something for American investors out of the billions of dollars they placed in foreign securities during the boom period, it has been made plain by the administration that the government is not to be placed in the position of acting as a collector of private debts.

Nearly \$8,000,000,000 was lent by Americans on foreign securities. Of this amount \$851,000,000 was in default at the end of 1931. The total has been greatly increased since then.

The government now is organizing a bondholders' protective committee, whose duty it will be to salvage as much of this as possible. The committee is being organized by the department of state and the federal trade commission in carrying out the provisions of a rider which was attached to the securities act and called for the setting up of "a corporation of foreign security holders" as a semi-official agency with a charter from congress.

This will represent the extent of the government's participation in the efforts to collect on defaulted securities. No official support will be given any representations which the committee may make, it was emphasized on the part of the government.

The United States frequently has been criticized for acting as a collector of private debts in Latin America. Such a role has been popularly condemned. The present administration apparently does not intend to invite similar criticism.

The purchasers of foreign securities took their chances and they must rely on their own resources in recovering their money.

In view of the inability of the government to collect the money due it by foreign governments as war debts, it is hardly to be expected that Washington would prove a better collector for private citizens.

CUT DOWN EMPLOYMENT AGE LIMIT!

The discrimination against middle-aged job-seekers is an old story by this time. Lately it has been more or less ignored, because it grows worse. Some employers seem to find in the New Deal itself a new opportunity for such discrimination. In re-employment, with so many idle men and women to choose from, they pick the younger ones without regard to social justice or personal need, or even fitness. They exaggerate the value of youth and the burdens of liability insurance.

An age limit of 45, which was established in many places before the depression, is said to have been lowered by as much as 10 years. Industrial employers refuse to hire men over 35. And this at a time when family need and active working life is supposed to be longer than ever before.

Such unsocial practices, if continued or tolerated, may result in retaliation. People over 35, for instance, might unite to stop buying the products of employers who boycott their age class.

Inflation might do it if deflated the windiest of the inflationists.

THERE'S A PLACE I know, where the rugged earth challenges the snarling sea and the sea meets the challenge and there is eternal warfare.

It is a high point above the sea. Great gashes cut deeply into the rocks. Ancient cypresses grow upon the headland, poppies cling to the meager earth, small mussels cling even more surely to the wet rocks far below. And here beneath the trees the skeleton of a long-dead whale rests and bleaches in the summer sun. Small boys come and carve their initials on the ribs of that great beast. Families come here to picnic and fathers and mothers hold their small children tightly by the hand as they stand on the rocks and watch the great ocean rush into the clefted rocks.

It is a good place to be. . . . You climb cautiously halfway down the cliff and find a place to sit and stare at the restless, energetic sea. The good earth is at your back, another continent is far beyond the horizon that lies before you. A wave comes slipping in and fills the cavern at your feet. It slips back to the waiting waters and another takes its place, pours relentlessly into a hollow place in the earth and as it reluctantly retreats it slavers and sucks and the earth spits the drippings forth in steaming jets. More waves rush and climb and wrestle with the earth and at last the sixth or seventh or tenth gathers almost leap this mighty fist of rock and earth and trees and drop triumphantly on the other side.

And then, looking down into the seething waters, you see a small, sleek seal diving and playing in the green waves, in the white foam. . . . That brown fellow is not afraid. The savagery of the ocean means nothing to him. This is his home and all the roar and rush are sweet music to his ears. He is the child of the strong sea. If there were no mighty waves, he could not be himself. . . . In a still pond, he would be a sluggish, lumpy fellow and not the graceful miracle that he is.

And the man, looking down at the seal and the restless waters, says to himself, "Thank God that life is stormy. Thank God that life is like this green and white passion of effort and strain. Thank God that life is so often savage and dangerous and such a challenge to a man. . . . I would not have it otherwise."

HAPPINESS IN SIMPLER LIVING.

Financial necessity has changed your mode of living, but it has brought you greater comfort and less worry.

There is a degree of complacent serenity that did not exist in your excitement-hunting days.

You don't worry now about keeping up with this neighbor and that. You don't go into expense you can't afford, with consequent disturbance of your peace of mind, because you can't get hold of the money to do it.

If you have learned your lesson, you must be convinced that you were foolish in many ways.

Often you have asked yourself what such an existence amounted to.

What did you get of value from the hectic life you led?

Now you are not always in a race to go places, or always planning and scheming ways to procure money to pay your social way.

You are at home more nights, and you do less expensive entertaining.

You live more like a rational human being.

And you are surprised at the real enjoyment life holds, when you take time to appreciate the simple things that anyone can have if they wish.

Honestly, now, aren't you happier?

MAMMON

Strange God am I.
The yellow god of gold!
Whose worshippers must die
And leave the joys they hold;
I pledge no hope to men
By which their strength may live.
Helpless I leave them when
They lose the gain I give.

Who lends his faith to me
To beauty oft grows blind.
Nothing but gold he'll see
Before him or behind;
Friends will his heart depart
About him will hatred heap.
Let me but win his heart
No lasting joy he'll keep.

I promise nothing more
Than coins which he must spend,
Unto his massive door
I bring no worth-while friend
When griefs his walls invade
And dark his skies and gray,
Helpless am I to aid.
No word have I to say.

Mine is a curious power,
I merely sell and buy,
I bring to bloom no flower.
A strange, cold god am I.
Who follows me must miss
All that can long endure,
I promise earthly bliss,
But even that's not sure.

KNOW ANY BIGGER?

One of this week's contributions to the prevaricators' column is by M. C. Spencer, of Riverton, Ky. A man by the name of W. J. Hunter, of North Carolina, he says, once owned a cow, called the "jerk tail stock."

All you had to do was to place a pall under the cow and jerk her tail and the milk flowed into your pail. One day this cow did not come up to be milked. When two days had passed the owner went into the woodland to look for her. The extraordinary animal had started across a sinkhole in the ground and her tail hung on a snag as she made efforts to go forward. The milk flowed into the sinkhole and when the owner found her she had churn-

ed the milk and was stuck in the butter which was so firm she could not get out.

The C. H. veracious narrative is by Oliver C. Sand, superintendent of schools at Ornegard, N. Dak. He writes: My father once told me that when he was a young man he killed a cat. To make sure it was dead he decapitated it. But to his behoof, if the cat didn't come back the next day carrying its head in its mouth!

We note where it has been suggested that the surplus food stuffs be given to the starving poor instead of having them burned up and dumped into the ocean. Common sense seems to be getting a little bit of a show. What difference does it make to the producer if the poor eat the stuff or it is burned up so near they can smell the smoke.

THE TROUBLE WILL BE WHEN THE MILLION COMES. So Many Of Us Won't Fit In.

A MAN AND A MULE. Over the hill trailed a man behind a mule drawing a plough. Said the mule to the man: "Bill, you are a mule, the son of a jackass, and I am a man made in the image of God. Yet, here we work, hitched up together, year in and year out. I often wonder if you work for me or if I work for you. Verily, I think it a partnership between a mule and a fool for surely I work as hard as you, even harder. Ploughing or cultivating, we cover the same distance, but you do it on four legs and I on two. I, therefore, do twice as much work per leg as you do."

Soon we'll be preparing for a corn crop. When the crop is harvested I give one-third to the landlord for being so kind as to let me use this small speck of God's universe. One-third goes to you and the balance is mine. You consume all of your portion with the exception of the cobs, while I divide mine among seven children, six hens, two ducks, and a banker. If we both need shoes, you get 'em. Bill, you're getting the best of me, and I ask you, is it fair for a mule, the son of a jackass, to swindle a man—the Lord of creation—out of his substance?"

"Why, you only help to plough and cultivate the ground, and I alone must cut, shock and husk the corn while you look over the pasture fence and hee-haw at me."

"All fall and most of the winter the whole family, from Granny to the Baby, picks cotton to help raise money to pay taxes, and buy a new harness, and pay the interest on the mortgage on you. And what do you care about the mortgage? You 'ornery cuss, I even have to do the worrying about the mortgage on your ungrateful hide."

"About the only time I am your better is on election day, for I can vote and you can't. And after election I realize that I was fully as great a jackass as your papa. Verily, I am prone to wonder if politics were made for men or jackasses, or to make jackasses of men."

"And that ain't all, Bill, when you're dead that's supposed to be the end of you. The parson tells me that when I die I gotta be forever

lost that is, Bill, if I do not do just as he says, and most of what he says keeps me from getting any kick out of life."

"Tell me, Billium, considering these things, how can you keep a straight face and look so dull and solemn?"

Be drugged with treachery to the
brim.

With hopes that but allure, then fly,
With joys that vanish while he
sips,
Like Dead Sea fruits that tempt the
eye
And turn to ashes on his lips!
His country's curse, his children's
shame.

Outcast of virtue, peace and fame,
May he be at last, with throat of flame,
On the parched desert thirst and
die!
And when from earth his spirit
flies,
Just Prophet, may the damned
one dwell
Full in the sight of paradise,
Beholding heaven and feeling hell!

The term "watered stock" came into existence when old Daniel Drew was wont to bring his cattle down to the city to the market. Hence the term "watered stock."

Symposium of Editorial Views By Newspapers of Nations on
Important Subjects as Edited by Consolidated Press AssociationFederal War On Criminals
Gives Confidence To Nation

Success In Kidnaping Prosecution Credited To Strength
Of New Campaign In Which Fear Of Punishment
Puts Gangsters On The Run

Expressions of relief at the prospect of ridding the country of its organized crime follow the conviction of kidnapers in the Oklahoma City case, and tributes to the power of the federal government when aroused are widely voiced. Greater energy is seen in the relentless pursuit of habitual law breakers. It is held that state and local authorities lack the power to achieve results, and that the tide was not turned until the nation as a whole took up the fight.

"Law in Oklahoma does a service to the entire nation," thinks the CLEVELAND PRESS. "It is a dealer while the PROVIDENCE JOURNAL holds that the 'convictions in the Oklahoma case symbolize the results of federal action.' The SAN ANTONIO EXPRESS declares that 'the federal and state governments must stick together,' adding that 'the federal operatives' good work in the Oklahoma case afford an earnest of what the system now proposed might accomplish.' The COLUMBIA (S. C.) STATE says: 'The desperadoes will soon come to fear these federal agents, who never quit, as the escaped convict dreads the trained bloodhound baying on his track. The resources of the government in crime detection are unlimited, and it is time the conspirators in gangdom, who have long trifled with the law enforcing departments of cities and states, were made war upon by the force which can crush them.'"

"Law-enforcing agencies of the federal government are infinitely superior," avers the CHICAGO DAILY NEWS, with the comment in connection with the latest development: "Notorious criminals, known by local communities to have instigated, if they did not commit, murder and other deeds of predatory violence, and to have circumvented state justice, have not been able to frustrate the efforts of the federal agencies. True, some of them are serving sentences for income-tax evasion, but for the crimes that made them notorious, but that paradox reflects on the states, not on the federal government."

"There is no police service in which there is public confidence and respect," asserts the TOPEKA DAILY CAPITAL, "except that of the Department of Justice at Washington, in dealing with organized crime. Kidnaping, gangsterism, such wholesale killing as the Kansas City station station massacre, is organized, and recently so interlocked that the same killers are involved in many if not most of the outrageous crimes that stir the American people. The marauding gangs are limited in number and the federal agents will clean up, as they promised. Meantime, if local authorities can keep them up, once federal investigators pick them up and hand them over, the country will feel relieved."

Similar belief is shown by the CHARLESTON (S. C.) EVENING POST, while the SIOUX FALLS DAILY ARGUS-LEADER remarks "crime on the run," and remarks that "various types of outlaws are learning to fear the power of the United States forces." The CINCINNATI TIMES-STAR attests that "the new deal in criminal justice has emboldened witnesses and jurors alike," and that "the relations of public, police and criminals, which got dangerously out of line in recent years, are getting back to normal."

THE BALTIMORE SUN recognizes the recurrence of criminal outbreaks, and offers the explanation: "It is, perhaps, impossible to get rid of them all by a single concerted drive. It will take a long period of unspiced."

He became president in 1911, ruled with an iron hand for 9 years until he fell ill, shot himself to escape a mob yelling for his blood, died 2 days past his 53rd birthday.

1536—Wm. Tyndale was strangled and burned for printing the Bible. He thought the Bible should be made accessible to the common people, translated and published the New Testament in English for the first time and his work ordered destroyed by prelates who held the common people were not capable of understanding and interpreting the Scriptures. Profligate Henry VIII, anxious to curry religious favor, had Tyndale imprisoned finally allowed him to be executed. But when Henry's ancestor, James I,

ordered an official version to be made, the savants he put to work leaned heavily on Tyndale's version.

1686—The first German immigrants to reach America arrived at the port of Philadelphia, became the "Pennsylvania Dutch."

1890—The power of Congress to interfere with the beliefs of a church was finally established when the Mormon church yielded to pressure of the U. S. and on this date abolished polygamy. (On Aug. 28, 1852, polygamy had been openly announced as a divine revelation.) A tenor of the church, Prophet Brigham Young had 19 wives & 56 children of record. For years, the Mormons resisted U. S. authority, did not yield when 1,000 of its leaders & most prominent members were fined & imprisoned, had a change of heart when Wilford Woodruff became the church's head, for he held the nation's law should be supreme. Not all Mormons had multiple wives only the well-to-do could afford more than one.

George Washington once danced five hours without a rest with the wife of one of his generals. * * * Emperor Antoninus of Rome changed the name of October to Faustina in honor of his wife. The wife of his successor had it changed back. * * * Connecticut & Michigan both had laws providing "If any man shall kiss his wife, or wife kiss husband, on the Lord's Day, the party at fault shall be punished at the discretion of the court."

Hayes Becomes Head Of LegionIllinois Man Is Elected As
National Commander
Of Legion**CONVENTION AT CHICAGO ENDS**

By EUGENE J. CADOU
International News Service Staff
Correspondent
CHICAGO, Oct. 6.—Edward A. Hayes, Decatur, Ill., attorney, today assumed the active stewardship of the American Legion while thousands of war veterans left for home after closing their fifteenth national convention.

The new commander immediately began mapping his plans to carry out the mandates of the convention

EDWARD A. HAYES

which include whole-hearted opposition to America's entrance into the League of Nations and the World Court and promotion of a rehabilitation program which does not meet with the full support of President Roosevelt.

"I am in thorough accord with the resolution protesting against the United States joining the League of Nations and its back door, the World Court," Hayes declared.

"I feel strongly on those issues." Concerning the convention's stand for collection of the war debts owed by foreign powers Commander Hayes said:

"I am for asking the nations that owe us to pay up."

The new commander began laying plans for a colossal membership drive throughout the nation.

For the third time the national convention adopted the program of the national defense council demanding that the army, navy and air service strength be maintained. With unanimity the convention adopted the four-point rehabilitation program which conflicts in one major plank with the president's viewpoint on free hospitalization for destitute ex-service men. The president holds that the community is responsible for giving medical assistance to veterans whose illness were not incurred in active service.

The Legion program adopted was one of rugged Americanism with a denunciation of the principles of Hitlerism and a resolution forcefully opposing American recognition of Soviet Russia.

Another Ballot Box Is Ordered Opened

Re-Count To Be Made Of Ballots In First District, Fifth Ward

Upon a petition presented to court by Robert M. Strickler, candidate for city controller, Judge R. L. Hildebrand has ordered the ballot box from the first precinct of the fifth ward, brought before the return judges at 9 o'clock Monday morning.

The action was taken under the legislative act of 1927, which provides that boxes may be opened, where a candidate has reason to believe that there may have been an error in the count. In order to have a box opened without any specific charges, the candidate must put up \$50 to pay expenses.

If it is found that there are errors in the count for any office, the candidate gets his \$50 back, but if there are no errors it goes to paying expenses.

Mr. Strickler is only 6 votes behind Earl Wimer, according to the figures following the opening of the last ballot box yesterday, the second of the eighth ward.

new life-saving invention!*

PERHAPS you have been using some other good brand of tire. If it has given you good service you naturally feel loyal to it.

But loyalty to your family and friends comes first. Investigation shows that the chances are better than even you'll have a blow-out some day. And every year thousands are killed or injured when blow-outs throw cars out of control.

New Invention Prevents Cause of Blow-Outs

Would you knowingly take this terrible risk with precious lives, when it can now be avoided at no extra cost?

To prevent just such tragedies Goodrich has built into every new Silvertown Tire the amazing Golden Ply. This life-saving invention resists the terrific heat INSIDE THE TIRE that causes blow-outs. Rubber and fabric don't separate. Thus blisters don't form. Blow-outs are prevented by overcoming their CAUSE.

Yet this new "3 times safer" tire costs not a penny more than any other standard tire! Can you afford to be without them, when your life and others might any day DEPEND on this extra protection?

Come in and let us show you this new kind of tire... take advantage of today's still low prices.

Railroad Worker Takes 4th Wife

(International News Service)
HARRISBURG, Oct. 6.—Married three times previously, Peter L. Stryker, 69, railroad brakeman of Staten Island, N. Y., embarked upon his fourth matrimonial venture. He obtained a license at the Dauphin county courthouse to marry Mrs.

Mayme Powell, 62, also of Staten Island. Two of his wives died and he was divorced from one.

INDIANA DOG FAILS TO RECOGNIZE "COPS"

(International News Service)
BLOOMINGTON, Ind.—Pal, the police dog pet of the Sam Franklin family here is the best watch dog in Monroe county but he has one fault. He can't distinguish between burglars and policemen. Discovering a prowler in the base-

ment of the Franklin home on returning home with the family, Pal chased the intruder out and up a tree in the backyard in record time. Then the dog took his post under the tree while the family pondered the police.

The officers made a speedy trip to the Franklin home but they didn't get the burglar. When Pal spied the blue coats coming into the yard he forsook his post under the burglar's tree and chased the policemen. While the cops were climbing trees, the prowler climbed down and got away.

Commissioners Get Amendments To Constitution

Twelve Measures Will Be
Placed On Ballot At No-
vember Election In
State

TWO BOND ISSUES
ARE UP TO VOTERS

Citizens Will Be Asked To
Express Opinion On De-
ficiency Fund, Vets
Bonus

(International News Service)
HARRISBURG, Oct. 6.—Twelve proposed amendments to the constitution of Pennsylvania, condensed into the form in which they will appear on ballots at the November election, have been sent to all board of county commissioners by Richard J. Beamish, secretary of the commonwealth.

The amendments have been stripped of legal verbiage and put into language that should be easily understood by all voters. This simplified method was adopted by Beamish after a conference with Gov. Gifford Pinchot and Attorney General William A. Schnader.

The proposed amendments will appear on the ballot in the following order:

Proposed Amendment To The Constitution No. 1

Shall Section 18, Article III of the constitution be amended to permit the legislature to appropriate money for pensions or gratuities to blind persons twenty-one years of age and upwards?

Proposed Amendment To The Constitution No. 2

Shall a new section be added to Article IX of the constitution permitting the General Assembly to authorize cities and boroughs to assess the cost of any highway improvements (including grading, curbing and the incidental grading and draining) upon abutting property where no prior assessment has been made for a similar improvement.

Proposed Amendment To The Constitution No. 3

Shall Article III, Section 22 of the constitution be amended to give to the general assembly the unrestricted right to prescribe the nature and kind of investments for trust funds to be made by executors, administrators, trustees, guardians and other fiduciaries?

Proposed Amendment To The Constitution No. 4

Shall a new section be added to Article IX of the constitution permitting the state to create debt and issue bonds to the amount of fifty million dollars to pay compensation to certain veterans of the Spanish American war, the China Relief Expedition, the Philippine war and the World war?

Proposed Amendment To The Constitution No. 5

Shall Section 1, Article VIII be amended by eliminating the tax qualification for voting?

Proposed Amendment To The Constitution No. 6

Shall Section 8, Article IX be amended by changing the borrowing capacity of counties, other than

Philadelphia, from seven (7) per centum of the assessed value of all taxable property (including personal property) to ten (10) per centum of the assessed value of taxable real estate and by changing the borrowing capacity of Philadelphia from ten (10) per centum of the assessed value of all taxable property (including personal property) to fifteen (15) per centum of the assessed value of taxable real estate?

Proposed Amendment To The Constitution No. 7

Shall Section 3, Article XVII of the constitution be amended by eliminating the so-called long and short haul clause applicable to railroad rates?

Proposed Amendment To The Constitution No. 8

Shall a new section be added to Article IX of the constitution authorizing the governor, auditor general and state treasurer to borrow not more than twenty-five million dollars to defray the expenses of the state government during the current biennium?

Proposed Amendment To The Constitution No. 9

Shall a new section be added to Article IX of the constitution permitting the City of Philadelphia to levy special assessments against such abutting or nonabutting properties as are or will be especially benefited by the construction of operation or transit subways, rapid transit railways or other local transit facilities, and granting the city power of eminent domain for such construction and operation?

Proposed Amendment To The Constitution No. 10

Shall a new section be added to Article XV of the constitution permitting the general assembly to authorize cities to take more land and property than is needed for actual construction in the laying out, widening, extending or relocation of highways or streets connecting with bridges, crossing streams or tunnels under streams which form boundaries between Pennsylvania and any other state, and subsequently to sell or lease such part as is not actually required?

Proposed Amendment To The Constitution No. 11

Shall Section 4, Article XV of the constitution be amended to permit the general assembly, subject to the consent of the electors, and certain restrictions and limitations, to provide for the consolidation of the county, poor districts, cities, boroughs and townships of Allegheny county into a consolidated city and county?

Proposed Amendment To The Constitution No. 12

Shall a new section be added to Article IX of the constitution authorizing the general assembly to borrow ten million dollars for acquiring toll bridges?

Amendment No. 6 applies to all counties and is intended to meet financial emergencies which have arisen through the economic period of unrest. It authorizes the increase of the borrowing capacity of all counties by raising the assessed value of taxable real estate.

Amendment No. 8 authorizes the governor, auditor general and state treasurer to borrow \$25,000,000 through a bond issue. The money would be used to defray costs of caring for the distressed, sick, and helpless, and the maintenance of universities and hospitals that have been receiving state aid.

Amendment No. 11 would enable Pittsburgh and Allegheny county voters to decide upon the question of becoming an identical unit as is the case of Philadelphia and Philadelphia county.

The Twelfth Amendment proposes that the commonwealth shall borrow \$10,000,000 to purchase toll bridges.

BIG ONE GETS AWAY

Every fisherman, at some time or another in his life, experiences his greatest thrill when the tug of the line tightens and stretches taut, an indication that a good haul is on the end. A thrill would hardly describe the emotions of William Wilson, who was fishing in the Shenango river near Clarksville last Saturday when suddenly a muskelunge, those

prides of the Canadian waters, took his line and commenced to fight. After a fight of nearly a half hour the weakening string of the pole snapped and the "muskel", which Bill claims weighed all of 20 pounds, continued up the stream.

UNIONTOWN, Pa., Oct. 6.—Dependent upon continued ill-health, Mrs. Anna Yurchak, 46, of House No. 87, Shoof Works, sent a rifle bullet crashing into her brain late Wednesday night. COUNCIL MEETS

At their regular meeting on Monday night the council of New Wilmington discussed routine business, ordered bills paid and transacted other business. The building of a sewer on Mercer street occupied the attention of the evening. It is probable that the R. C. A. will be asked for funds to help in its construction, a part of which is donated and a part loaned.

Entertaining their guests at the home of Mr. and Mrs. C. B. White on West Newhamock avenue, Miss Florence Neal and Mrs. Darwin Hartwell gave a delightful party on Wednesday evening as a post-nuptial courtesy to Mrs. Frank Stirtz, who will be remembered as Miss Elma Jean White. The affair was a miscellaneous shower and the honored guest received many lovely gifts. During the evening the guests participated in bridge and late in the evening a dainty lunch was served.

Those attending from out of town were: Miss Maxine Pitzer, Miss Jean Patterson, Mrs. William Aggas and Mrs. Stella Stirtz from New Castle, Miss Betty Steen from Elizabeth, Pa. Local guests included: Misses

Pennsylvania Game Habits Are Depicted

Norman Wood, Of Coatesville, Addresses Students In Lawrence County

IS REPRESENTING GAME COMMISSION

Sponsored by the New Castle Sportsmen's Ass'n. and through the courtesy of the Pennsylvania Board of Game Commissioners Norman M. Wood, Coatesville, Pa., lecturer and naturalist, is appearing before a number of conservation organizations, Service Clubs, and public schools, this week in Lawrence County.

His talks are illustrated by motion pictures, depicting scenes of Pennsylvania Wild animal life. He has appeared before the Consolidated schools North Beaver township; the Bessemer Rod and Gun club in the High school auditorium, Wednesday evening and at the Union Consolidated school. Thursday morning he spoke to 350 students in the Senior Hi school, and exhibited three reels of pictures on friendly birds and the activities in the Civilian Conservation Camps.

Thursday night he spoke before the sportsmen in West Pittsburgh. This afternoon he will appear before the high school students at New Wilmington and this evening will speak before the sportsmen's organization at Pulaski.

Explains Stagger System

Some of the high spots of Wood's talk have to do with the stagger gunning system of sixteen days in November, pointing out that there are two ways to conserve game, cut down the bag limit and shorten the seasons. He also made mention of the fact that 3,500,000 cottontail rabbits are killed annually in Pennsylvania by the legalized hunters; that 40,000 are killed by automobiles estimating a rabbit for every mile as Pennsylvania has 40,000 miles of State road; with out any reference to the rabbits that are killed illegally. He told his audiences that states from whom rabbits had heretofore been purchased are passing legislation prohibiting the sale of game and Pennsylvania was compelled to look forward to propagating its own game. He asked all sportsmen to co-operate with the district game protector and try and stop any pre-season hunting; advised people to keep their dogs in restraint, to bell the cats and if every hunter was a real sportsman this state would save upwards of \$350,000 the amount it requires to enforce the game laws in Pennsylvania. He said it was the request of Governor Pinchot and every member of the Board of Game Commissioners that ever hunter should respect the farmer's rights, to avoid hunting in fields where stock was grazing, not to forget to replace a fence in its original condition when it broke down as the hunter was attempting to get over. Mr. Wood will be the guest speaker at the annual banquet of the sportsmen's association, at Ellwood Monday night.

Pinchot Urges Tree Planting

(International News Service) HARRISBURG, Oct. 6.—Gov. Gifford Pinchot has proclaimed Friday, October 20, as fall arbor day and bird day.

"I call upon all Pennsylvanians of older growth to join with the schools and the school children of the state in ascribing their true value and giving their due consideration to trees, birds, and all other living things," the governor's proclamation states.

"In particular, I advise and urge the planting of trees and shrubs, the protection of wild birds and flowers, and the full appreciation of nature, which is one of the best and easiest of all the roads to happiness."

Necklines share the spotlight with shoulder and sleeve treatments in the new blouses and dresses. There is the draped up cross-over, and the button-down line which is very high and covers the neck when worn up. Unbuttoned it falls into a neat club collar.

Why Liquid Laxatives are Back in Favor

The public is fast returning to the use of liquid laxatives. People have learned that the properly prepared liquid laxative will bring a perfect movement without any discomfort at the time, or after.

The dose of a liquid laxative can be varied to suit the needs of the individual. The action can thus be regulated. A child is easily given the right dose. And mild liquid laxatives do not irritate the kidneys.

Doctors are generally agreed that senna is the best laxative for everybody. Senna is a natural laxative. It does not drain the system like the cathartics that leave you so thirsty. Dr. Caldwell's Syrup Pepsin is a liquid laxative which relies on senna for its laxative action. It has the average person's bowels as regular as clockwork in a few weeks' time.

You can always get Dr. Caldwell's Syrup Pepsin at any drugstore, ready for use. Member N. R. A.

Foresters In Camp Prepare For Winter

Camp Hill Fellows Get Heavy Clothing; Sports Season Is Over

(Special To The News.) CAMP RALPH E. HILL, C. C. C., WILLIAMSPORT, Pa., Oct. 6.—Only three New Castle youths quartered at this forest camp left for home at the close of the first enlistment period. The remainder chose to continue their life in the timberland.

In appreciation of the fairness of our former commander, Captain Ralph E. Hill, we have named the

camp in his honor. This method of expressing our gratitude met the unanimous approval of the company.

A supply of winter clothing is now being issued to recruits. Sam Saul has been appointed to serve as an assistant to the supply sergeant and will aid in this huge task.

Harold Dilks and Harry Crawford have taken over the duties of student cooks. John Davidson remains as chief cook.

The camp baseball players have laid their shoes and gloves away and have but the records and pleasant memories to remind them of the

happy hours spent in healthful competition. Players and supporters alike proudly refer to an enviable record. The aggregation went to the finals in the district elimination series, after defeating the strong Trout Run nine, whose roster included many New Castle stars such as "Bub" Jones, J. Wrona, L. Ostrosky and Russo. In the final elimination this camp team held the lead until the eighth inning when they were overwhelmed. New Castle lads who made a very creditable showing on the diamond were Captain John Hill, "Mugs" Clark, Jack Henry and Harold Dilks. Sam Hudson and "Slim" McDonald of Ellwood City also shared in the victories.

(International News Service)
WASHINGTON, Oct. 6.—Although a dyed in the wool baseball fan, President Roosevelt will be satisfied with a radio account of the second world series game to be played at Griffith stadium this afternoon.

The chief executive will be occupied by affairs of state today but hopes to be able to "knock off" at noon tomorrow in time to see the last Washington game of the autumn classic.

Minister Greatly Benefited by Thompson's Barosma Tablets

"I have used Thompson's Barosma Tablets and find them a very fine medicine. They were not only beneficial to my kidneys and bladder, but also to my stomach and liver, writes Reverend J. Bass of Titusville, Penna. If you have any distressing pains or aches which you cannot understand, or feel all run down and out of sorts, it may be a sign that either the kidneys or intestines are not eliminating properly but are allowing poisons to remain in the body.

Saul In Damascus
"Brass Tacks" On The Sunday School Lesson
The Golden Text

2 Cor. 5:17—"Wherefore if any man is in Christ, he is a new creature: the old things are passed away; behold all things are become new."

(The International Uniform Lesson on the above topic for Oct. 8 is Acts 9: 1-31, the Golden Text being 2 Cor. 5:17. "Wherefore if any man is in Christ, he is a new creature: the old things are passed away; behold all things are become new.")

By DR. ALVIN E. BELL

No better illustration of our golden text can ever be found than Paul who wrote it, for he was indeed "a new creature in Christ" after his conversion and all things became new in him spiritually.

From the stoning of Stephen which Saul witnessed officially he became the guiding spirit in a bloody wave of persecution against "the people of the Way" as the Christians were first called. He was as a wolf bent upon the extermination of the fold of Christ. His own testimony is that he was "exceedingly mad against them and persecuted them even unto foreign cities" and "beyond measure I persecuted the Church of God and made havoc of it."

"Yet breathing threatening and slaughter against the disciples of the Lord" after all this havoc wrought at Jerusalem, he heard of a group of Christians at Damascus, 160 miles away and asked of his associates in the Sanhedrin "letters to Damascus, that if he found any that were of the Way, whether men or women, he might bring them bound to Jerusalem."

The Conversion Of Saul

"Onward he pressed," as Dr. Stalker says, "and the sun of noonday, from which all but the most impatient travelers in the East take refuge in a long slumber, looked down upon him still urging forward his course towards the city gate." But the Good Shepherd himself went out to meet the wolf, putting himself between the flock and the foe as he had promised to do. "Saul, Saul, why persecutest thou me? It is

Reorganization Of City Council Now Foreseen

When Councilmen Louis Genkiner and Stanley Treser leave office next January it will leave vacant the positions, director of the streets department and also director of parks and property and purchasing agent.

Genkiner is the director of parks and property and also the purchasing agent. Treser, an engineer, has been director of the streets department.

Both will have served four years in January and their successors will start on a four-year job.

Already there has been discussion in different circles as to which post probable councilmen would favor. It is reported there may be a shift all around.

Some claim that D. O. Davies, director of public safety and the health department, would not be averse to heading the department of parks, property and acting as purchasing agent. However, the claim has not been borne out by any public utterance of Mr. Davies.

CAUGHT FISH A-WING BY GRASPING TAIL

PORTLAND, Ore.—John Marple, of Cutler City caught a 15 inch blue black salmon "on the wing" while fishing in Siletz Bay near Taft, Ore. and thereby robbed a seagull of a hard earned dinner. Marple noted two gulls fighting over the fish, one of them finally breaking away with the fish in its beak.

The gull flew directly over Marple's boat and the fish was too heavy for it to make clearance. Marple reached up, caught the fish by the tail, and the makings of another fish story were complete.

JUST SPRINKLE IN TO MAKE CLOTHES WHITER

Few women really enjoy chaperoning clothes up and down a washboard. Banish that! Sprinkle two tablespoons of Climalene into your wash water. White clothes come out whiter; colored clothes emerge far cleaner, fresher and softer.

Senior High School News

School Reveals That 55 Families Moved To City During Vacation Months

It is of great interest not only to the students of the senior high school, but also to the people of New Castle, to note the number of students from other cities and townships who have entered our school for the first time in September. This may be an indication of the trend to move from city to city looking for employment, but we are interested to note that New Castle seems to have some attraction for people from all over the nation. In looking over the records, it has been found that there are 14 students from four townships of this county, and 22 students from 15 cities in Pennsylvania, and 19 students from cities outside of our state, making a total of 55 whose families have moved into this city since June.

HOME ROOMS PICK REPRESENTATIVES

Group Of 60, Named Thursday, Gather For First Time Monday

Student representatives were elected in voting which took place in the various session rooms. The arrangements for these elections had been made by the student council. Under the arrangements, each teacher selected three or four students from her class to act as a nominating committee. The names of nominees were posted in each room, and elections were held Thursday. One representative and an alternate were elected from each session room, and the first meeting of the representatives will be held Monday, October 9. The student representatives number about 60, and work in coordination with the student council in carrying out programs for the betterment of our high school. They elect officers and regular meetings are held twice a month.

Cook, chairman of the Christmas card committee, reported concerning the work of their respective committees. A combined definite form of initiation was adopted for those new members who are to enter the organization next semester. A motion was entered and carried that the constitution be unamended and read at the next meeting, and John Thomas was appointed to condense and present to the club only the most important parts of the constitution.

As a means of raising money for the club, it was suggested that a speaker be engaged to talk before the student body. Helen Boya was appointed to investigate. A series of debates will be held at later meetings of the organization. Raymond Bennett and James Hartland were named as captains of the two debating teams. A social committee was named with Alma Broadbent as chairman and Beryl Nunn, Marian Bergland and Joshua Kaplan as her assistants. Their duty is to make arrangements for a senatorial party, which will take place soon. This event will be one of the few social functions given by the club.

The concluding business was the decision that the organization meet at a set time throughout the year. It was decided that the senators will

Talk School Matters At Council Meeting; Plan More Activity

The student council held its weekly meeting Wednesday, October 4. After the minutes of the previous meeting had been read and approved, the report of the nominating committee was heard. This committee had made the arrangements for the elections of the student representatives in the various session rooms. Returns of the elections were announced Thursday. A report was heard from the committee on monitoring badges. As this committee had not completed its task, nothing definite was decided upon. It was resolved that faculty members appoint a committee in each lunch room to preserve order during the lunch period. A committee was appointed to conduct "pop" chapels throughout the semester, and the meeting concluded with the reading of the constitution.

Reserves Observe Recognition Event

Colorful Girl Reserves Affair At Y. W. Honors New Members

The traditional recognition services of the senior high Girl Reserves were observed Monday evening in the blue room of the Y. W. C. A. The old members of the organization marched into the room and

formed a semi-circle. Each held a white candle, mounted on a blue cardboard triangle. President Jane Bechtol and Secretary Charlotte Withers stood before these members attired in white, with blue capes lined in white. The new members, led by Treasurer Donna Jean Beall and Vice President Katie Dannels entered, forming a semi-circle inside the others. Charlotte Withers spoke first, followed by Jane Bechtol, who asserted that this Girl Reserve organization "is a link in a great world-wide chain, reaching around the world. For service it stands in far away lands where many strange flags are unfurled and the spirit of love is the light that it shows to girls of all nations wherever it goes. Its members must strive to be true, in all that they think, in all that they speak and in all they endeavor to do."

After lighting their candles from that of the president, the new members, in unison with old, repeated the purpose, slogan and code of the organization. During the lighting of candles, Miss Ruth Lewis sang, accompanied by Miss Jane Allen. Lois Chambers concluded the rites with a fitting prayer. Thus approximately 30 girls were formally introduced to the club. The ceremony was exceedingly impressive, the color scheme, blue and white, being the Girl Reserve colors.

Of additional interest was the appointment of the entire cabinet. Time had to be taken in considering appointees for these important positions, as the success of the club depends upon them. The cabinet appointed is as follows: Program committee Ruth Stevenson and Evelyn Van Buren; social committee, Betty Rice and Doris Marvin; service committee, Lois Chambers and Eleanor Wolcott; publicity, Layte Wheeler

and Katherine Palmer; devotionals, Pauline Booher; reporter, Marian Bergland; music, Dorothy Fisher; menu, Bobbie Broida; decorations, Thelma Fox. The excellent abilities of some of these officers have already been proven, and the rest have their opportunity.

With the new members recognized, the club can start in earnest on its program for the semester.

File Charges Against Treser

Formal Action Taken At
Session Of Council
This Morning

NAMES OF MEN LAID OFF, GIVEN

Charges of having used the power of his office for political purposes and of conversion of city property and labor today were formally filed against Councilman Stanley Treser when council convened in city hall. No date for a hearing has yet been set.

The charges were contained in an affidavit signed by Calvin Colvin and were presented in his behalf and also men whom it is alleged Treser discharged, by Attorney Walter S. Reynolds. Attorney Thomas W. Dickey has been retained by Treser as his counsel.

After the charges were made they were referred to committee of the whole. Council will convene in committee Monday but in the meanwhile will peruse the charges. After their study they will decide when they will hold a hearing.

The charges made by Colvin today in brief are the same as made verbally Monday. They charge Treser told Andy Matthews and James Bigley on September 23 he knew the men who were not going to vote for him and they would lose their jobs.

It is further alleged that later some men received notice of their lay-off, effective September 30. Those laid off according to the affidavit were: Joseph Barber, Calvin Colvin, Jim Bigley, Mont McKee, Mas Stafford, Walter Barber, John Flynn, Wilbur Moon, Big Nose Joe, Bill Brown, Willis Majors, Frank Valley, Amos Synder, Fred Owens, Sam Costa and Willis Michaels.

The affidavit further alleges that city sand, gravel and brick hauled in city trucks by William Gibson and C. A. Frampton to Treser's residence and used to build a fish pond

and that city materials were used to repair a sidewalk in front of his property. This is said to have taken place either in late May or early June of 1932.

Attorney Dickey informed council he had been retained as Treser's counsel and was given a copy of the charges. Attorney Reynolds and he told council they would agree upon a date for the hearing as both lawyers are busy next week in county court.

LIQUOR RUNNERS PUSH ACTIVITIES ALONG COAST

Rum Smugglers Are Still Active

Syndicate, Engaged In Running Liquor, Will Not Cease With Repeal

WELL EQUIPPED TO CONTINUE BUSINESS

By ROBERT S. THORNBURGH
International News Service Staff
Copyright, 1933, by International News Service

WASHINGTON, Oct. 6.—Thirty rum smuggling syndicates are operating off the northeastern coast of the United States, while three rings are running liquor over the Pacific coast, according to information in the hands of the coast guard today.

The Atlantic syndicates have from one to six vessels each, while the Pacific syndicates have from two to four. The coast guard is said to be more consolidated with larger operators intensifying activity.

These rings for months have been employing every device to get liquor into the United States, as well as preparing for a continuation or even an increase of their activities after repeal, according to coast guard officials, in the belief that taxes and tariffs on the legitimate product will be high.

Coast Guard Alert

Repeal of the 18th amendment may complicate for a year or two rather than solve the whisky smuggling problem, according to fears expressed by coast guard officials who are watching the situation carefully.

Repeal of the amendment will mean that the Canadian law prohibiting clearance of liquor for American ports will become void. What course the smugglers pursue will depend upon conditions in the American market. The coast guard, however, is making plans for a drive against the rum runners on the Great Lakes.

Canada stopped giving liquor clearance papers for the United States on the appeal of this government at a time when an enormous volume of whisky and beer was being smuggled into this country several years ago.

In addition to the probability of fairly high tax and tariff on liquor, the limited American supply that cannot be built up to requirements for several years and the inevitable heavy demand will be important factors to stimulate the activities of

the smugglers. Furthermore, the economy program has forced the coast guard to dismiss many men and lay up hundreds of its rum chasers, giving the smugglers an added advantage.

Are Well Equipped
The eastern rum syndicates are operating chiefly from the New Jersey shore to Nantucket. Most of the ships use the French islands of St. Pierre and Miquelon as ports. There is some activity along the Florida coast, which will grow with the opening of the winter season. Coast guard officials said the rum syndicates are well equipped with powerful short wave radio stations employed to direct operations and notify the rum skippers of the whereabouts of government vessels.

Central Christian To Have Rally Day

Tureen Dinner At Noon Will Feature Home-Coming Services Sunday

Rally Day in the Bible School and Home-Coming Day in the congregation will be observed Sunday, October 8th, by the Central Christian Church, Long and Pennsylvania avenues. The Rally Day program begins at 9:45, with A. W. Bauman, Sup't., in charge.

A "Big Sing" special music and appropriate readings will be features of the opening exercises; and five hundred and fifty in attendance is desired and expected.

The congregational Home-Coming and communion service will begin at 10:50. Features on the program include the reading of messages from former pastors and members; a brief review of congregational history; recognition of the oldest, youngest (both in age and discipleship) charter and former members present; special musical numbers; and a timely sermon, "The Household of God," by Charles Warren Johnston, Minister.

At noon, a tureen dinner will be served in the dining room. No program is scheduled for the afternoon, that time being left open for visiting and fellowship. The evangelistic service, featuring a congregational "Big Sing" special music and a sermon, "Coming Home," will begin at 7:30.

Hospital Committee Appeals To Pinchot

(International News Service)

PITTSBURGH, Oct. 6.—Governor Gifford Pinchot was asked in a letter sent him today by the central hospital committee of trustees, representing 36 western Pennsylvania hospitals, to include in his call for a special session legislation to provide funds for hospitals in danger of being forced to close.

The committee also urged voters to support the \$25,000,000 relief bond issue at the polls on Nov. 7. The bond issue would provide \$2,231,365 for division among 163 hospitals. Even with this money, however, the committee pointed out to the governor, some hospitals may be in danger of closing because of lack of

sufficient funds to carry on, making it necessary that provision be made in the call to enable the legislature to take up the question of providing additional financial aid.

nine in the early twenties: Nelson
 Greer, a Kiski athlete, James Pit-
 zer, center of the famous Scholastic
 five of former years; Bill Thompson,
 a guard at Walt Hutchinson cham-
 pionship five last winter.

Over one hundred membership
 cards were given out to those pre-
 sent who will canvass next week for
 new members. Social affairs, such
 as dances, plays, etc., are being
 carded in an effort to secure money
 to purchase some natty uniforms for
 the boys.

Volleyball will be enjoyed by those
 men of the club whose legs have
 failed them in faster games, while
 probably some handball will be
 played during the winter.

Next Thursday evening at 8 the
 New Wilmington Athletic Associa-
 tion will meet again.

But why do big nations need pro-
 tective armament if the little ones
 don't?

The regular monthly executive
 committee meeting of the Lawrence
 County Sabbath School Association
 was held at the Y. W. C. A. Thurs-
 day evening with the president,
 Robt. M. Strickler, Jr., presiding,
 and the following members present:
 D. M. Marshall, Harry W. Brown,
 vice presidents, Mrs. M. E. Vaughn,
 secretary, Mrs. A. B. Street, chil-
 dren's division superintendent, Miss
 Alice Grimes, young people's divi-
 sion superintendent, Mrs. Howard

F. Magill, mission superintendent,
 Miss Margaret Walker, temperance
 superintendent, Mr. Geo. B. Wilson,
 president of Ellwood District, Mr.
 R. H. Lusk, president of Wilming-
 ton District and Mrs. Lusk, Mrs. F.
 R. Weisz and D. S. Williams, ad-
 ditional members of the executive
 committee.

The chief matter to be taken up
 was the coming state convention in
 Gettysburg, October 11, 12 and 13.
 From all indications, there will be
 quite a number attend the conven-
 tion from Lawrence county, and it
 is thought that the quota assigned
 will be reached.

The historic location of the con-
 vention together with the splendid
 program provided, which includes
 outstanding leaders and specialists
 from all over the country, will give
 unusual interest to this year's con-
 vention.

It was announced that the Wam-
 pum District convention would be
 held at the Wampum Presbyterian

church, Thursday, October 12th,
 afternoon and evening sessions.

 pickets surrounded the two mines.
 There was no disorder. No further

Bessemer Plays At Evans City

Good Game Is Anticipated At Evans City This Afternoon

Evans City and Bessemer High School football teams will play this afternoon at Evans City and there should be a good game as Bessemer displayed plenty of strength in their last game and Evans City holds a victory over Union High.

According to Coach Fredericks, the Bessemer gridders are in good condition. Very few of them were bruised up in their game with Zelenople when Bessemer won six to nothing. Last week Evans City lost to Rural Valley 14 to 13.

Ragged And Poor Stage Parade In New York City

Delegation Of Ministers Head Parade Up Broadway As 2,- 000 Join In March

(International News Service) NEW YORK, Oct. 6.—The tramp of discontent sounded on Broadway today as more than 2,000 unemployed men and women marched from the Battery to City hall to petition Mayor O'Brien for aid.

It was a parade of the poor, led by a delegation of clergymen and guarded by more than 100 police. At City hall the ministers announced they would hold a memorial service for the unemployed who had starved to death.

The ragged rank and file of the parade bristled with signs calling on city, state and nation to end misery and starvation. Up the famous street which has known so many triumphal demonstrations, the marchers shuffled with heads up and shoulders thrown back.

In the line of march was a fierce green dragon—the dragon of starvation. There was a coffin, small enough for a child which was marked simply, "Died of Malnutrition". The parade moved restlessly past Wall street and the typical starting noontime crowds gathered in silence.

"Stop Loss" Provisions Stumbling Block In Master Retail Code

By LEIGH MATTESON
International News Service Staff
Correspondent

WASHINGTON, Oct. 6.—All the high officials of the NRA were pondering today the problem of whether to eliminate the "stop loss" provisions of the master retail code. The problem was put up to them last night at a special meeting conducted by Recovery Administrator Hugh S. Johnson.

Most of the "practical" men in the NRA believe the stop-loss method of preventing cutthroat price competition is a "safe" method. Johnson himself is one of these "practical" men.

At the meeting the "practical" men were forced to give careful consideration to the "theoretical" economists of the NRA, a unit planted in the research and planning division to study mathematically all the economics involved in important code provisions.

This mathematical economist unit opposes the "stop-loss" provisions on the ground that it is a form of retail price-fixing that can result only in driving prices so far above public purchasing power "indefinite inflation" will be required to save most merchants from bankruptcy.

Substitute Formula.—This mathematical economist unit opposes the "stop-loss" provisions on the ground that it is a form of retail price-fixing that can result only in driving prices so far above public purchasing power "indefinite inflation" will be required to save most merchants from bankruptcy.

Last week it was disclosed that the economists had devised a substitute formula for preventing cutthroat competition and the disastrous price wars that have ruined many merchants in recent years. They would remove the stop-loss provisions and substitute provisions which would enable any retailer to take a cash profit from any competitor who reduced prices to real cut-throat levels. In addition the cut-throat merchant could be forced to discontinue bargain-hunting cus-

tomers and thus lose their good will.

All this would be made possible by permitting "loss leader" sales in all merchandise except basic staples and practices in the retail field.

Instead of permitting a cut-throat merchant to limit the sale of "loss leader" articles, all limitations on such purchases would be forbidden. Customers could not be restricted to say, six bars of soap or one package or one dress.

And even retail competitors would be permitted to make purchases in any amount they desired.

Thus, if prices were set too low in a "loss leader" sale, the cut-throat merchant's competitors could come in and buy out all the articles.

All these objections to the "stop-loss" provisions of the code and the substitute method of preventing cut-throat competition were outlined to Johnson and the other "practical" NRA officials.

Utah May Become First State With Prohibition Vote

Utah, Unless Present Indications Fail, Will Vote To Uphold Prohibition

(By An International News Service Staff Correspondent)

SALT LAKE CITY, Oct. 6.—Utah unless all present indications prove surprisingly wrong, will be the first (perhaps the only) state in the Union to uphold the eighteenth amendment.

Due to vote on November 7, along with five other states, the repealists are confronted with an organized opposition unique in the United States. The arch enemy of stimulants in any form—and that includes coffee and tea, as well as hard liquor—is the Mormon church, or the Church of Jesus Christ and Latter Day Saints.

Even the most determined advocates of repeal are pessimistic in view of the influence of the church which dominates all Utah, and even adjoining states. At least 70 per cent of the population of this state is Mormon. True enough, there exists, even among church members, a difference of opinion toward the eighteenth amendment, but the moral problem is dominant.

Chief basis of a prohibition victory is the fact that the border counties in Idaho and Arizona—Mormon counties—went overwhelmingly dry.

Salt Lake City and Ogden are expected to go wet, at least by 2 to 3 but the country districts, it is believed, will overwhelm that advantage of the anti-prohibitionists.

Keep To The Right If You're Flying

Iron-Clad Rule Of The Highways Is Made Applicable To The Air

(International News Service)

HARRISBURG, Oct. 6.—"Keep to the right" has taken to the air. Borrowing that iron-clad rule of the highways, the division of aeronautics of the State Department of Revenue has laid down regulations governing "right of way" in the air lanes.

The department stipulated that aircraft flying in established airways must keep to the right side

of such airways when it is safe and practicable. Three hundred feet is considered a safe passing distance.

The craft required to give way, if circumstances permit, must avoid crossing ahead of the other. When two planes are on crossing courses, the ship which has the other on its right side must keep out of the way.

If there is danger of a collision when two aircraft are approaching head-on, each plane must alter its course to the right, so that each may pass on the left side of the other. This rule does not apply to cases where planes pass more than 300 feet apart.

A landing plane has the right of way over planes moving on the ground or taking off. This, however, does not relieve the pilot of either or both planes from exercising utmost caution, according to the bureau.

Rules governing safe altitudes of flight and parachute jumping also were formulated by the department. A plane's minimum altitude over congested parts of cities, towns, or settlements, must not be less than 1,000 feet, the rules specify.

New Castle has been rather fortunate in having a prominent figure in the program of the Southwestern District meetings of the Pennsylvania Congress of Parents and Teachers to be held in the Fort Pitt Hotel, Pittsburgh, Monday and Tuesday, October 9 and 10.

Mrs. C. R. Brenner, president of the Rose Avenue Parent-Teacher Association, will be one of the speakers at the Monday afternoon session; she will conduct the program conference. The Rose Avenue Association has been singled out by the state association for its splendid work. Mrs. Brenner, before becoming president of this unit, was its secretary and last year was the program chairman.

Dr. C. C. Green, superintendent of the local schools, will preside at the dinner meeting Monday evening in the Fort Pitt.

Many members of the local associations are planning on attending the sessions in Pittsburgh Monday and Tuesday.

New Castle And Union To Play Tonight

Schoolboy Football Teams Set For Game

Coach Phil H. Bridenbaugh Has New Castle's Strongest Lineup Available

Game To Start At 8 o'clock; Union Hopes To Score On "Red Hurricane"

Two Lawrence county high school football teams, New Castle and Union, await the whistle tonight that sends them into action at Taggart Stadium in their annual meeting on the field of battle. The kickoff is scheduled for 8 o'clock. The gates of Taggart field will swing open at 7 o'clock. This will be New Castle's fourth game of the season. It will be Union's fourth engagement. Both teams are eager for the fray. The "Red Hurricane" has been polished up this week by Coach Philip H. Bridenbaugh. Union has spent many hours on the practice field and hope to make a good showing against the big New Castle eleven.

It looks like a David and Goliath tussle tonight. New Castle High with a big powerful hard driving team, and Union with a small but well balanced eleven and scrappy.

Passing Attack
Union High has been drilling all week long on a forward passing attack. "This is our only chance, against New Castle," said Coach Dave Boyd today. Union looked good against Bridgeville last week with a 6 to 0 victory. Union will have its strongest lineup available for the battle. Coach Boyd has made a few changes this week, sending Rowbottom to end in place of Wimer and Hughes to center replacing Richey. Mateja has relieved Jaskolka of his guard job.

Morrison, the big Union halfback is ailing with a badly infected finger and may be kept on the bench. The halfback posts will be taken care of by Bozar and Monico. Captain Walter Georgacz will be the fullback for Union. Little Joe Todd will be the signal barber.

Hope For Score
The boysmen hope to at least score on New Castle. If Union can get their forward passes to work, they may make trouble for New Castle. In the workout held by the Unionites at the stadium Wednesday night the Blue and White jerseyed team looked very good. The backfield men were thorough for long gains in the short scrimmage session. Don't underestimate this Union Township team.

New Castle will be at their strongest with the possible exception of Joe Howley at center. It is likely that Coach Bridenbaugh will send Billy to the center of the line in place of Howley. The rest of the team will be the same that faced Charleroi with the exception that Lane may not start in the left halfback post, but will give way to Nickum with Chas. James at other halfback post. Captain Walter Kominc will be the fullbacking. Archie Ridley will be at quarterback.

The "Red Hurricane" has not been any too successful against the aerial thrusts of the opposing teams this year. Tonight they will have to be doubly careful that Union does not slip one over on them. Charleroi, Braddock and Ellwood City found New Castle weak in breaking them up. Union may find a different looking defensive New Castle team.

Schools Are Rivals
This is strictly a local contest and one that causes interest among the

Lineups For Tonight

Coach Philip H. Bridenbaugh of New Castle high school and Coach David M. Boyd of Union high school today announced their probable starting lineups for the football game to be played at Taggart stadium. The game will start at 8 o'clock. The gates will open at 7 o'clock.

The New Castle team will be arrayed in red jerseys and white numerals. Union will have blue jerseys and white numerals.

WILL PAY HONOR TO TRAP CHAMPS

Trap shooters will honor two Pennsylvania trap shooters, Miss Alice Crothers, champion woman shooter of North America, and Walter Beaver, who carried off the Grand American handicap from the 25-yard line, on Saturday, October 14. The club giving the shoot is the Chester County Rod and Gun club, Coatesville, Pa., and the big event, 150 registered targets, will take place there.

Shooters from Pennsylvania and adjacent states will attend. Miss Crothers is a daughter of S. M. Crothers, champion single target (gun shot) marksman in Pennsylvania, having held that distinction for five consecutive years.

Senators Win; Earl Whitehill Gives Five Hits

Washington Senators Back In Thick Of Series Fight With 4 To 0 Victory

SENATORS POUND OUT NINE HITS

By DAVID J. WALSH
International News Service Sports Editor
GRIFFITH STADIUM, Washington, Oct. 6.—Earl Whitehill declared Washington Senators back into the running in the World's series Thursday afternoon by scoring a sensational shutout over the New York Giants in the third game, 4 to 0.

With President Roosevelt looking on and a crowd of 25,000 in the stands Whitehill led the Giants to one hit over the last five innings while the Washington bats came to life and hit Fitzsimmons hard, particularly in the early innings.

Senators Hit Hard
It was the first shutout of the series and also the Senators' first victory, the American leaguers having lost the first two games in New York. Back on the home lot, they wasted no courtesy on the Giants to day. Myer opened on Fitzsimmons with a single and Goslin doubled, both scoring later on Schult's safety to first. Bluege then opened the second with a double and scored on another by Myer. Fitzsimmons then settled down and kept the Senators in check until the seventh when Sewell got an infield hit and took second when Terry dropped Mancuso's throw in an attempt to catch the runner napping. This was scored as a stolen base. Myer then drove in the run with a clean single to right, the third hit of the game.

Whitehill survived a shaky start to pitch great ball over the last six innings. Only twice were the Giants able to get as far as third base, so well did the left hander perform. He did not look so good in the second when Davis singled and took second on a wild pitch, following which Jackson walked but he pulled out of the hole thanks to a fast double play from Cronin to Myer to Kuhel.

President In Stands
Hits by Fitzsimmons and Critz had Whitehill in trouble in the third but he retired Terry with the third out and was not threatened again until the eighth. There, Peel, a pinch-hitter singled and Cronin muffed up Moore's grounder, both advanced on an infield out but again Terry could not come through. He popped an easy one to the edge of the infield where Kuhel made the catch.

The president and his party arrived on time to start the game but rain caused the delay and also served to keep the crowd down to 25,000. The box score:

Senators Will Battle Hard To Even Up Series

Washington Can Stay In Championship Fight By Beating Hubbell Today

CRONIN MAY PITCH WEAVER

By DAVIS J. WALSH
International News Service
Sports Editor

WASHINGTON, Oct. 6.—History, unknown to the thousands and perhaps even to itself, was in the throes of creation today as the Washington Senators and New York Giants poised themselves for a plunge off the deep end into the fourth and all too critical game of the current world series out there at Clark Griffith's very neat and only slightly used stadium. It might be said, in fact, that with less than 26,000 present yesterday it was hardly used at all. But that's so much water out of the faucet.

Today will bring with it what is knowingly called the "clinch," with the Senators now trailing only two victories to one and the Giants coming on with their "Sunday" pitcher, Mr. Carl Hubbell. In other words, it's only supposed to be the middle of the series but, to many practical purposes, it might very well be the end.

Must Beat Hubbell
If Hubbell beats them again, they'll stay beaten. If he doesn't, they probably will pick up the rest of the series. That's the point. Whitehill's shutout yesterday, 4 to 0, and ride on through the rest of the series.

So the checks are up today, as the boys like to say, and for this most sensitive of situations the Senators are staking their all upon Monte Weaver, so youthful that he oughtn't to be out after dark. That's admittedly straining a point, since the young man is in his twenties and has been around these several years. Nevertheless, the gesture is a sheer gamble although the Senators, having lost with Stewart and Crowder, simply have to take it.

Nor can Bill Terry afford to with-

hold Hubbell in favor of another day's rest. He has to get this lean, narrow-eyed, hard-bitten man from the great southwest in there this afternoon or he won't be able to bring him back again for a seventh game, if and provided there should be a seventh game. However, all Mr. Terry has on his mind right now is that there will be a fourth game this afternoon, it ought to be a wow.

Expect Big Crowd
The weather, it seems, will be better. So will the crowd, which numbered less than 26,000 yesterday, for one reason and another, including a drizzle of rain almost up to game time. At that, they probably won't sell out today but, after all, that sort of thing seems to be vulgar and unfashionable nowadays and, besides, the populace is beginning to feel comforted and reassured. The citizens didn't want to quit on the ball club. But, first, they had to be sure the ball club didn't quit on them.

They know now that, with the introduction of the American league ball here, the outfit is just beginning to fight. Its pitchers no longer shiver with every ball that is hit along the four lines, as they did at the Polo grounds. Its hitters, notably Myer and Schulte, are meeting the ball with assurance and gusto. The shift from one official ball to the other produced a chance that was palpable and, I suppose, inevitable.

Whitehill In Shape
The outfielders were playing the fences. The infielders almost recoiled under the impact of blistering smashes. Even the bunted ball left the bat too briskly to be effective. Under these conditions, it was all the more surprising that Whitehill was able to come on after a floundering start and pitch a shutout. His five-hit performance was all the more noteworthy for the fact that Ott and Terry, the power-boys, got only one ball out of the infield between them. In the face of this performance, Pitzsimmons! A very good pitcher from the third inning on, was only wasting his time.

It was surprising, too, considering the speed of the ball, that great plays were made almost every inning by the two infielders, notable by Bluege, Critz and Ryan. The point is that they had to make them or the teams might be out there battling yet.

Schenley Group Looking Forward To Coming Match

Will Provide Plenty Of Opposition, Chairman Boschert States

In a letter received today from M. H. Boschert, chairman of the tournament committee of the Schenley Park Golf association, the chairman of arrangements for the coming match with the Pittsburghers at Schenley Park course on October 15, states that they are looking forward with keen anticipation to the match.

It is hoped to take a team of 24 men and two women to Pittsburgh on this occasion. The Pittsburgh group was loud in their praise of the fine treatment accorded them on their visit here this summer and expect to return all the courtesies shown them when they played on the Municipal course in July.

Charles E. Allen, chairman of arrangements, today announced the appointment of David Kay for the field club course, M. K. Gilliland for Castle Hills course and Manager William C. Fleming of the Municipal course to line up a group of eight players from each course for the coming match.

The group will leave here around 11 a. m., so that they will arrive in Pittsburgh by 1:30, when the match is scheduled to start.

Morris-Harvey First Opponent For Grove City

Andy Beres And George Binder To Hold Down Guard Posts, Alexander In Backfield

GROVE CITY, Oct. 6.—Two sets of backs will run for Grove City College here Saturday afternoon when the Crimson team makes a belated start in the 1933 campaign with Morris-Harvey College as the opposition. Through the final week of practice, Coach Amos has been constructing one backfield that will depend largely on power, while another set, lighter and faster, will flash speed as its principal threat.

Coach Amos may start a backfield consisting of Verne Smith and Art Alexander at the halves, with Carl Deems at quarter and Howard Wilson, a sophomore, at fullback. The other backfield will use either Smith or Alexander at fullback, flanked by Gross, Oriss and Wycis. This trio has shown unusual speed in the week's workouts, although they have an average weight of only 150 pounds.

The line is fairly well set, with Tomko and Soich at ends, Caulfield and Plance at tackles, Beres and Binder at guards, and Bache at center. This is a veteran combination, although lacking some of the power of last year's team, due to the loss of two powerful tackles, Foti and McCoy.

Westminster Leaves For St. Bonaventure

(Special To The News)
NEW WILMINGTON, Pa., Oct. 6.—Coach John Lawther had but a few men available for the St. Bonaventure trip today due to the fact that eight members of the Titan football team have been injured during the last two weeks and also, to the fact that the squad is the smallest in years.

Taking advantage of a vacant date last week, Coaches Lawther and Martin sent their men through five scrimmage sessions. This week the team has had two scrimmages. These hard drills have resulted in injuries to eight of the players, leaving few first-string players available for the St. Bonaventure game at Olean on Saturday.

George Hollander, tackle; Merrill Straw, tackle; Tony Krutatz, guard; Walter Young, guard; Ray Sweeney, quarter; Dick LoBuono, end; and Richard Watt, end, are all on the injured list. Bob Arrowsmith, back, had to undergo a tonsil operation.

As a result of these injuries, the Titans will present a patched-up lineup Saturday. Sweeney will probably be able to start at quarter. Pete Leyschok will be at left half. Either Whitey Siljander or Scarborough will play right half. Staples will be at fullback.

On the line, Swede Hunneke and either Scarborough or Austen will be at ends. Lou Franklin and Bert Speizer will probably start at tackle. Jim Blocker will be at center. Harold Ert and Dick Reniers will be at guard.

A squad of 18 players, Coaches Lawther and Martin, Trainer Jack Hulme, Student Manager Nelson Greer and R. X. Graham, assistant athletic director, left here today at noon for Bradford where the Titans game Saturday will be played in the Olean, N. Y. stadium at 2:30. The next game on the Titan schedule is with Geneva at Beaver Falls next Friday night, October 13.

First Tri-State Conference Test, Duquesne Will Play Bucknell At Pittsburgh

(International News Service)
PITTSBURGH, Oct. 6.—Duquesne University and Bucknell open football relations tonight when the teams clash for the first time on the illuminated gridiron at Forbes Field.

Both the Dukes and Bucknell's Bisons stake undefeated records on the game, each having defeated all opponents met thus far this year with comparative ease.

Coach Carl Shavely has one of tightest and beefiest defense arrays in Bison history, and it would not surprise to see the "Night Riders" eventuate a switch from the steam-roller tactics so effectively exercised in their three previous games to an "air raid."

Geneva and Thiel start the tri-state conference ball rolling today when they tangle at Beaver Falls in the first 1933 conference game.

Ellwood City Boy, Former Captain Of Pitt Team, Plans To Leave Hospital

(International News Service)
PITTSBURGH, Oct. 6.—First steps to bolster the Pirate defense which was "cut to ribbons" by the Boston Redskins ball carriers in the pro football game here Wednesday night were seen today in announcement of the addition of two new players to the Pittsburgh roster.

President Art Rooney of the Pirates announced that Quarterback Westfall, formerly with the Green Bay Packers in the major league, has been secured from the Boston Redskins, and Gil Burleton, burly guard, has been purchased from the Chicago Bears.

Condition of Jim MacMurdo, big Ellwood City boy playing with Boston, was "much better" today, attaches reported at St. Francis hospital where he was taken after becoming ill during the Pirate-Redskins game. MacMurdo was stricken with a severe attack of exhaustion.

ELLWOOD TO MEET BEAVER FALLS HI

Blue And White In Full Strength For Annual Clash With Heckathorne Men

Record Crowd Anticipated For Grid Game Here On Saturday Afternoon

ELLWOOD CITY, Oct. 6.—Ellwood City High concluded a strenuous and busy week this afternoon in preparation for their annual football game with Beaver Falls High who is invading this city on Saturday afternoon.

Those who have watched the blue and white in the workouts this week have resolved not to miss this game. Angered by criticisms of their work by the public, the squad is anxious to prove a thing or two and is eagerly awaiting game time when they will match plays with the Heckathorne men at Lincoln Field. The game is scheduled to get under way at 2:30.

Local sports fans who have watched the daily scrimmages at Lincoln Field were amazed at the blocking and tackling displayed by the first two teams. Even Coach "Gandy" Benedict who is considered anything but an optimist, could not help show a smile of satisfaction with this new zest and determination. All in all it bodes no good for Beaver Falls. The whole squad is in the pink of condition and Coach Benedict will have his strongest lineup for this contest.

The invaders with a green team having only two veterans, won their first two games. They had a close call at the hands of Motuca though, winning by a 7-6 score. Last Saturday they defeated Beaver in a hard fought game. These two games showed that the Tigers were not up to their power of former years. All their toughest games remain to be played yet. Ellwood City is considered their first big opponent.

Beaver Falls' two veterans are Teddy Olzak, selected as all Beaver County end last year, and Detka Luccasiano. The former who has been selected captain of the team, has been shifted to a halfback post by Coach Heckathorne. Coupled with Harry Smith, fullback, a dangerous passing combination has been formed. Their worth has been demonstrated in the past two games. The passes are usually from Smith to Olzak. The latter is also considered as a splendid ball carrier. The remainder of the backfield is rounded out by Wertz at quarter and Brown at left. The forward wall is heavy but inexperienced.

A fine game is on tap for tomorrow afternoon when these two old rivals clash. The locals determined to start on a winning spurt and the Heckathorne men equally anxious to maintain theirs, should prove quite an interesting argument. Fans are of the opinion that the victor will be the winner by a low score.

The probable lineup:

Ellwood City: Beaver Falls
 Jeannette L. E. Detka
 Luccasiano L. T. Ewing
 Shirley or Steckman L. G. Alquin
 Pishonier R. G. Lonnet
 Kaufman R. F. Carothers
 Bettioni R. E. J. Smith
 Bunney Q. Wertz
 Franas L. H. Brown
 Beane R. H. Olzak (C)
 Luxemburg (C) F. H. Smith

Enjoy Quilt Show At Baptist Church

Many Interesting Quilts Are Shown At Pleasing Event Here Yesterday

ELLWOOD CITY, Oct. 6.—One of the most enjoyable events of the season was held in the First Baptist church Thursday afternoon and evening when a splendid quilt show was staged in the church rooms.

Fully 85 quilts were displayed at this time. One that attracted much attention was a quilt reputed to be 150 years old. There were several there having an age of 100 years. There was another quilt that was made during the Revolutionary War and was not completed yet. Other interesting sights were the showing of hand woven covers, the wool for which was raised and spun by the people themselves.

A contrast to this was the showing of a number of modern quilts and rugs. Mrs. Enoch Hazen was awarded the ribbon for having the best quilt in the show.

Contributors of the more older articles to this event were: Mrs. Paul Winter, Mrs. Pierce Hazen, Mrs. Bert Fisher, and the Texter family.

Much credit for the success of this affair goes to Miss Carrie Hazen who was in charge of general arrangements.

Tea was served informally during the affair by a committee.

W. M. Society At Falen Home

ELLWOOD CITY, Oct. 6.—With charming hospitality Mrs. Martin Falen received members of the Women's Missionary society of the Wurttemberg U. P. church at her home at Wurttemberg yesterday afternoon at 2 o'clock when they gathered for the October meeting.

Home Missions was the topic for discussion and it was presented by Mrs. R. H. Kirk as leader. Mrs. Charles Ketter gave a report on the fall rally held recently at the Rocky Springs church.

Plans were made for the annual harvest home dinner to be held next Thursday at the church. Mrs. G. W. Gibbons and Mrs. Laura Weller are to be in charge of the entertainment.

Arrangements were formulated for the Beaver Valley Presbyterian church to assemble at her home at North Sewickley for the regular meeting with 24 members participating.

The devotional period was conducted by Miss Hazel Stiefel and during the business meeting plans were formulated for a number of activities to be held during the coming months.

The remainder of the evening passed pleasantly with a variety of games and contests directed by Miss Frances Pfingh and Miss Corabel McKinney as the diversion. An added feature was the serving of appetizing refreshments by the hostess, assisted by her mother, Mrs. R. E. Bell.

Miss Anna Tackas invited the class members to be guests at her home at Riverview for the next meeting to be held Friday evening, November 3.

Officials Visit Pythian Sisters

Plans for a Halloween dance on October 19 were completed at this time. Mrs. Marion Conway is to be in charge. Lunch was served later by Miss Verne McKim and her committee.

Mr. and Mrs. James Kennedy and children Martha and Edward, and Mrs. and Mrs. Philip Kennedy have returned home from Warren, O., where they visited the former's daughter, Mrs. Henry Hull.

Mr. and Mrs. Harry Badger and children Hazel Ann, Joan and Marilyn of Butler spent last evening at the home of Mr. and Mrs. George Badger near Scotts Ridge.

Tentative Plans For City Building Discussed At Meet

Preliminary Plans Of Architect B. J. McCandless Approved By Council Thursday

ELLWOOD CITY, Oct. 6.—Much satisfaction of the plans for the proposed new city building for Ellwood City, was expressed by the members of the Borough Council at their monthly meeting held last night in the city building, as they discussed the matter.

Councilman M. A. Riley stated to council that he was of the opinion that some tentative plans should be submitted and discussed by council of this project before making application for a loan to the Federal government, which is in keeping with the NRA program. He also stated that the borough should send representatives to Harrisburg and hurry the loan as much as possible for the city's improvement project. This includes the building of a city building which will house the police and fire departments as well as the various city offices; the building of a storm sewer; repaving of Lawrence avenue, connecting the Ewing Park disposal sewage system with the borough system; paving a portion of bridge street; and a number of other storm sewers.

The plans for the city building as submitted by Architect B. J. McCandless were highly satisfactory to the members of council. It is a two story affair which will have room for everything.

After inspecting the plans and hearing a talk by Mr. McCandless and Mr. Riley, council voted to accept the latter's suggestion and send representatives to Harrisburg when needed to negotiate the necessary loan.

Arnett Scheduled To Meet Cretella In Second Bout Of Shelby Amateur Show

ELLWOOD CITY, Oct. 6.—The public cannot but realize the magnitude of the Shelby amateur fight show next Wednesday when such well known ring artists as Pete Boy, local welterweight and Kid Mack of Farrell, Pa., are scheduled for the curtain raiser of the eight other bouts.

After an absence from the ring for a little over a month, Pete Boy is raring to get back into the roped arena and regain some of his lost prestige. Boy has been one of the outstanding welterweights in this district. He has youth and experience and a willingness to mix it. Due to the fact that he has been compelled to work, he could not train properly for his last few bouts. Two weeks ago under the management of Merritt Book the local welterweight began an intensive program of training, and with the fights only a week away, he looks in the pink of condition. Boy is determined to stage a comeback the fans will not be soon forgetting.

Kid Mack who hails from Farrell is out to acquire fame and maintain his impressive record. He has had about 25 amateur fights and is quite a dangerous boy. There will be no time for the settlement of nerves. No sooner will the first bout be over than Charles Arnett will be thrown into the ring with Mack. Arnett is a member of the Benny Rocco stable of this city, needs no introduction in these parts. Arnett is a hard man to beat at infighting. He has appeared in tournaments in Oil City, Farrell, Pittsburgh, Butler, and this city. Recently he and Gusti Morini staged a battle for the welterweight championship in a tournament at Farrell. Arnett lost a close decision.

The local boy will have no easy going with Cretella, who showed his gameness and ability last Monday night at New Castle when he lost a decision to Morini. Cretella is a smooth and clever fighter, quick to seize on any opportunity. He is anxious to meet Arnett and display his wares in this city.

Honor Anniversary Of A. P. Hazens

ELLWOOD CITY, Oct. 6.—October 5, 1887, forty-six years ago, Miss Margaret Marshall, daughter of Mr. and Mrs. John Marshall of Wayne township, became the bride of A. P. Hazen, son of Mr. and Mrs. Smith Hazen, of North Sewickley. Rev. Rice at that time pastor of the Slippery Rock Presbyterian church performed the ceremony.

In honor of that occasion, their daughter, Mrs. Jennie Jones, entertained a group of their friends, including members of the adult Bible classes of the Providence Baptist church, last evening at their home at Frisco. The event proved to be a complete surprise to Mr. and Mrs. Hazen, who were planning to attend a gathering at Ellwood when their home was invaded by the guests.

The hours passed in a pleasant manner with games and music as the principal diversions. The home was prettily decorated with clusters of fall flowers. Later in the evening Mrs. Jones assisted by her daughters Lillian and Luella, served the guests a dainty collation.

Guests of the evening were: Mr. and Mrs. S. G. Hazen, Mr. and Mrs. Roy Cable and daughter Doris, Mr. and Mrs. Clarence Gillespie and children, Mrs. Roy McDanel and daughter Gladys, Rev. and Mrs. J. R. Routledge, Mr. and Mrs. Bert Hazen, Mr. and Mrs. Charles Hazen, Mr. and Mrs. Dewitt Bennett, Mrs. Florence Krepps, Mr. and Mrs. Fred Smith, Mrs. Florence Van Wagon, Mr. and Mrs. Howard Hazen, Mr. and Mrs. Fred Householder, Mr. and Mrs. Edward Brelock, Mr. and Mrs. Elwin Hazen, Mr. and Mrs. Lawrence Zeigler, Mrs. Charles Brandenberry, Mrs. Jennie Jones and daughters, Lillian and Luella and the honored guests.
